DETAILED ACTION

Election/Restrictions

Applicant's election with traverse of Group I/ Fig. 1 (claim 29-48) in the reply filed on June 14, 2004 is acknowledged. The traversal is on the ground(s) that there is no mutually exclusive between the Figures. This is not found persuasive because Fig. 1 does not provide an aperture member while Figs. 2 and 3 requires an aperture member. **However, claims 29 and 35 are considered as the generic claims.**

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 29-46 are rejected under 35 U.S.C. 102(b) as being anticipated by May (US 3 124 113).

Claims 29-46 are rejected under 35 U.S.C. 102(b) as being anticipated by Baudry (US 3 382 850).

Response to Arguments

Applicant's arguments filed November 2, 2004 have been fully considered but they are not persuasive.

The issue in the application is whether May supplies a dilute combustion mixture to a combustion chamber. The attorney argues that May supply a relatively rich fuel mixture into the chamber. The examiner disagrees because May used the relatively rich-fuel mixture as well as lean mixture fuel into the chamber (Col. 1, line 70 – Col. 2, line 1). Since the applicant defines that the dilute combustion mixture is the mixture of more oxygen, for example, less fuel, etc. (applicant's specification page 1, lines 7-13). Therefore, the function of a throttle valve is the mixing the fuel with the oxygen, and the adjustment of the position of the throttle valve is the process of making a dilute combustion mixture.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

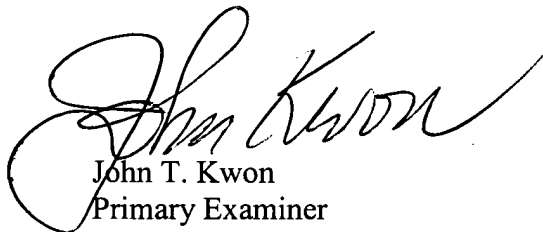

Art Unit: 3747

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
